CONSUMPTION CURABLE.

It cannot be two often impressed on everyone that the much dreaded consumption (which is only lung scrofula), is curable, if attended to at once, and that the primary symptoms so often mistaken as signs of diseased lungs, are only symptoms of an unhealthy liver. To this organ the system is indebted for pure blood, and to pure blood the lungs are indebted no less than to pure air for healthy action. If the former is pollated, we have the hacking cough, the heath flush, night-sweats, and a whole train of symptoms resembling consumption. Rouse the liver to a healthy action by the use of Dr. Pierce's Golden Medical Discovery, take healthy exercise, live in the open air, and all symptoms of consumption will disappear. For weak lungs, spitting of blood, shorttoms of consumption will disappear. For weak lungs, spitting of blood, shortness of breath, chronic nasal catarrh, bronchitis, asthma, severe coughs, and kindred affections, it is a most wonderful remedy.

THEY PAY \$500, OR CURE.

For many years the manufacturers of Dr. Sage's Catarrh Remedy, who are thoroughly responsible financially, have offered in good faith, through nearly every newspaper in the hand, u standing reward of \$500 for a case of nasal catarrh, no matter how bad, or of how long standing, which they cannot cure. The remedy is sold by druggists at only 50 cents. It is mild, soothing, cleausing, deodorizing, antiseptic and healing. sept27 d&wlw

That is rich in view of the performance of the Massachusetts Democratic "smelling committee" and the fact that the Democratic convention was conducted strictly on the basis of to the victors belong the spoils. As for the (Hobe's cry of Cleveland and Lovering the fact that the same convention that nominated Lovering elected Judge Abboit, a man who has been most outspoken in his criticism of the President, as a delegate to the National Convention, shows the absurdity of trying to run the Massachusetts Democratic campaign as a Cleveland boom. This money was disbursed to 17.607 comrades ney was disbursed to 17,607 comrades = and their families, and 8,979 others were assisted, giving 26,606 individuals who had received benefits during the year. During the year death had claimed 3,406 members, including Gen. John A. Logan. The figares do not indicate that the Grand Army is in any immediate danger of dishanding owing to the displeasure of the Democratic President and his organs.

Inasquict Cleveland and Secretary Bayas P esident Cleveland and Secretary Bay-ard have organized this commission in direct violation of the expressed wishes of Congress it would be interesting to know just what it is expected to accomplish. The commissioners will have no authority to act and it is not at all likely that their recommendations will be recognized by commendation of Goy. Hill's administrarefused to accept Mr. Bayard's pet theory Mugwumps who have repeatedly defor a settlement of the controversy. The who'e performance is a most remarkable his aid one and will doubtless receive prompt attention when Congress convenes. Bayurds abject surrender to the British Minister so disgusted Assistant Secretary Porter that it is openly announced he resigned because he could not acquiesce in a

policy that had been emphatically repudated by Congress. Secretary Whitney's Difficulty. Secretary Whitney, who is given by the Chairman Jones in a recent interview indicated his purpose to calf the Republi-

tee at that meeting to fix the time and place for the conveytion, and the rules require that six months' notice at least shall be given.

The Boston Globe of Wednesday morning said: "The the chiefs of the faithful Republicans of Massachusetts will meet tre-day to nominate candidates to lead their forlorn hope." This is silly even for the campaign slop of the Globe. The candidates nominated Wednesday by the Republicans will be elected in November and no one knows this better than the tilebe, which on the day after the

dates nominated Wednesday by the Republicans will be elected in the Republicans will be elected in the November and no one knows this better than the tilabe, which on the day after the election will treat its readers to the regular too paragraph "Yesterday was a cold day for the Democrats."

The Boston Herald is del ghted at the "overwhelming demonstra ion of Cleveland's strength" in the New York Democratic convention and the fact that the Administration controls the now State Committee. As that convention was run by the federal appointers of the President, a fact the Herald's report conveniently overlooks, it is easy to understand how the Cleveland thunder was manufactured. The President is now working the offices for his personal aggrandizement. There will be no end of Higginses during the next year.

A Portland correspondent of the Kenneke Democrati declares that the Democratic basses have a state al made up for delegates-at-large from Mai ie in the next National Convention and that Mr. Bass is to go from this district. If we are not make an late of the secretary's presence. It is probable at the board on the 6,000-ion battle ships. The board at first reported that it could not decide upon plans and that the hoard to bring in plans, and it remains to be seen whether the programme can be forced through.

We are of the opinion that the Governor and tonneil will find no occasion for a reversal of their decision in relation to the oppointment of special constables in this city in the arraignment of the Bangor Commercial, the free run orgar. As we said before if it can be shown by the recognized multivist that an erronious judgment has been formed, we have no d'out that upon

muthorities that an erronious judgment has been formed, we have no doubt that upon proper evidence to that effect the Governor and Council would reverse their devision, but they will hard y accept the Commercial as a competcht witness. Neither will they be likely to necept the Commercial as a competch witness. Neither will they be likely to necept the Commercial interpretation of the law governing their action in the matter.

When Gen. I owell was in Washington for aid to run his campaign the Ohio Demorciatic Association assured him that it would raise a fund of \$1,000 and forward the money at once so that it could be placed where it would do the most good. This association is composed of officials in the various departments, the chairman of the committee to levy assessments being one

D. C. Balentine, an employe of the Navy gentleman. He's totally unlike the ma-Department. When President Cleveland was elected much was salt about his determination to prevent any assessment of government officials for campaign funds, but now after two years and six months of Cleveland rule the assessment business is run in violation of law without even an attempt at disguise.

It is a square fight in this State between the Republican party, representing the spoilsmen and their desire to hold on to the apoils, and the Demogratic party representing the demand of the people for progress and reform. Cleveland, Lovering and reform Cleveland, Lovering and stiting with him over Apolitinaris and would make a good American. He is like an American, in that he gan make a good speech on any occasion. He strikes the local flavor just like an American and gains the interest of his audience at once I heard him speak to a gathering of Weishnden and he he had the public mark of an American. Tie Matter of Pensions Considered.

President Cleveland's nounced.

Sr. Louis, Sept. 29. At the Grand Army encampment at 0 A. m. the Commit-tee on Pensions related ti eir efforts to protop on Fennina region ten reuoristo pro-oure liberal egislation from Congress; the fate of the Pependent Pension bill, which would, at least, have removed 12,000 ver-erans from public paper houses; and call-ed attention to the Mexic in Pension bill as eff attention to the Mexicum Pension bill as far adre liberal than, the one pension in soldiers against the rebellion. This bill met the approval of the President. They were fairly atunned wher the same hand came to veto a measure like in principle but influitely smaller in degree for the veterans of the war against treason. They appealed to the Grand Army of the Republic and a response came from 300 000 members in no uncertain tones. The ammittee therefore

Prepared a New Pension Bill. It makes provision for pensions to all veterans who are, or may hereafter become unable to earn their own lifelinoud; for a direct continuance of pensions for wid we in their own rights for an increase of the present pittance to minor children; for fathers or mothers from any date of dependence. Such a law would at once remove fully 13,000 veterans from public alma houses where they now rest, making them pensioners instead of paupers and provides pensions for fully as many more now dependent upon private charity. These laws for the first time are in recognition of the principle that pensions be granted to sarvivors of the war.

Without Absolute Proof of D sability

Without Absolute Proof of D sability in the service, proof almost impossible to secure after a lapse of more than twenty years. This bill is similar in its general ciple to that vetoed with the object and the pauper clause omitted, making this a dan illity and not a dependent bill. The committee recommend a continuance of committee recommend a continuance of earnest effort in favor of the bill; also of all recommendations for increase and equalization of rensions for special dis-affility made in the recent report of Pension Commissioner Black; pension of \$12 per month to all widows of honorably discharged solders and sallors of the vur, are

important factors in all that goes to create speed.
The Volunteer is an improvement over the Mayflower both in form and gower to carry sail. The Mayflower is built, of wood with lead bullast attached to her oak keel outside. On the inside, on top of her oak keel, which is two feet t. ck, lead ballast is stowed. In building the Volunteer, Mr. Edward Burgeas wanted to get bis whights as low as possible so Gen Paine declied to build a steel sloop. The advantage of steel over wood is very apparant in regard to ballast. The ballast in the Volunteer has been cun into a trough which forms the shape of the keel, and it stowed lower in the Mayflower, on account of the space occupied by the oak keel of the Mayflower being used for stowing the lend. The Volunteer and Thistle both have clupper bows, and this is chauned to be an improvement. There is A MARKED DIFFERENCE

A MARKED DIFFERENCE

In the shape of the forefoot and leed of the Phistie and Vilunteer Interests and the last not as much forefoot as the Volunteer Hergestest draught is about twenty feet for wird of the skeinpost. With such a cutawing body under the water as the I histie has, it cannot but help her in stays, and many claim that the deep ding she has aft, when she is being hard sailed will have a tendency to let her work, up to windward I urning it the rig and inside fittings of both yachts, so fur as the rig goes, there is not much difference. Both have the rigs peculiar to cutters in fact, the Burgess type of sloop yacht has always had the cutter rig. Fake the bowsprits—both reef in, the yo uneer s by eight feet and the I linetle s six feet, and by the way, the Volunteer is the first Americar sloop that has gailed for the cup, with a realing bowsprit. The main rigging is mad of steel wire, except that on the I histie the lat er has turn buckles instead of lanyard. Each has runners and preven ers and, the full lands and blocks are about the vine. The sail plan and s pars of the I histie are taken from the Americans, and she has nearly has runners and preven ers and, the hull hards and blocks are about the same. The sail plan and spars of the Instite are taken from the Ampricans, and she has nearly the same sail area as the Volunteer, and her spars my sure about the same. By the above it will be seen that the contest of to-day is 4 question of type and it is keel as content on the transity won by the keel schoone.
